RANDOM ACTS OF CANINE-NESS WITH CANNABIS

DENVER, COLORADO (February 9, 2017) - has a new artisanal CBD dog treat manufacturer

to enter the growing cannabis industry. The founder of the Company is a graduate of the Culinary Institute of America with a decade plus of high end experience from New York to Las Vegas, and is a huge proponent of responsible entrepreneurship and “random acts of canine-ness.”

This is a family owned company whose aim is to promote pet wellness though and all-natural artisanal tasty treat. Bark Avenue believes that dogs should enjoy food good enough for humans; and that’s why they carefully select ingredients from North America, fashion their tasty morsels in small batches with no additives or artificial preservatives. The company also makes regular donation to Max Fund (a local no kill shelter in the Denver Metro Area). Our Chef/ Founder is also a volunteer rescue diver at the Downtown Denver Aquarium, a chef instructor for Cooking Matters Colorado which is part of the national No Kid Hungry Program, and a volunteer with the Retriever Rescue Organization of Colorado.

“We chose Super Zoo to launch our product onto the national stage because of its attendance size,” said Jennifer Chiongbian, Founder of Bark Avenue CBD Dog Treats. “More importantly to seize the opportunity to educate pet retailers and the general public on the benefits of cannabidiol (CBD) as an alternative all-natural pet treatment, and debunk the myths from the facts and clear up some confusion about marijuana versus hemp.”

The cannabinoids in the marijuana plant can provide powerful medicinal value when a full spectrum oil is used, which ensures the inclusion of all the beneficial compounds so the pet doesn't miss out on any of the benefits, also known as the "*Entourage Effect*".

If a pet is dealing with certain chronic illnesses, this all natural treatment may be the perfect natural solution for:

- Seizure
- Inflammation
- Gastro Intestinal Problems
- Anxiety/ Stress
- Pain
- Limping
- End of Life Care
- Arthritis
- Cancer
- Poor Appetite
- Vomiting
- Degenerative Joint Disease

"These CBD treats are great! My dog is doing so much better! I would like to buy a case or larger amount! He's an old dog and I would like him to be as comfortable as possible and this is the only thing that is helping him!"-Candy D.

Currently, these specialty products can be found at local Colorado marijuana dispensaries and retail pet outlets.

Company contact information and additional pet related articles pertaining to CBD; third party oil testing results; online store and product specifics can be found at: www.barkavenue.co

Distribution Opportunities: info@barkavenue.co / 800-303-6174

Bark Avenue is a purveyor of gourmet CBD dog treats for all breed sizes, along with a hip and joint specialty formula.
