MESSY MUTTS™

BEING A DOG IS MESSY BUSINESS

NEW Messy Mutts™ Elevated Feeder - Reddot award winner!

Toronto, ON, Canada (May 2016) - Jascor Housewares Inc. is excited to announce that its Messy Mutts™ Elevated Feeder has won the reddot design award. A one-stop feeder for all of your growing messy mutts' needs, the Elevated Feeder uniquely grows with your pet, thanks to its 3 sets of legs of varying heights; 3in, 5in and 10in. The 2 stainless steel bowls accommodate both food and water while the raised edge border and wide lip contain spills. Feeding has never been cleaner, easier and most of all healthier!

Visit the Messy Mutts™ **booth #3256** to learn more about the new Elevated Feeder, as well as other products including Silicone Feeders, Chenille Mat & Towel, Portable Food Mat and Travel Water Bottles. Stay tuned for more products to come as our Messy Mutts, Davis, Daisy and Rufus, continue on their quest to mess!

ABOUT MESSY MUTTS™ & MESSY CATS™

Mud, puddles (the bigger the better), water, more mud – these are just a few things our furry friends love. Chris and Lauren's pooches Daisy and Davis are no different. Their favourite place is the great outdoors – unfortunately they like to bring it back inside with them too. And so, Messy Mutts™ was born: a new line of fashionable and functional dog care products. As a natural extension, Messy Cats™ was eventually developed with the same purpose in mind. Chris has been designing stylish housewares for years. His eye for design is like a dog's sense of smell. All Messy Mutts™ and Messy Cats™ products are tastefully colourful, stylish and most importantly functional. Just ask Daisy: "Woof, Woof" or Rocky: "Prrrrr" They sure agree.
