NWC Naturals® Pet Products LLC announces Its New product Release Total-Zymes® Plus and our new Tri-KRILL™ Pump for pets

Total-Zymes® Plus tabs new size and improved. The best just got better!

We are the first company to offer this unique formula in a chewable Combo Tab for pets. It is the first combo tab that offers the benefits of 16 high performance broad spectrum digestive enzymes and 14 of the most productive live and stabilized probiotics available. This new formula now offers double the CFUs of the 14 different probiotics.

Formulated especially for our pets by the Author of "The Wonder of Probiotics" John R Taylor N.D.

Total-Zymes® Plus now comes in two sizes one for small pets 90 count each tab treats ½ cup pet food. The **NEW!** Larger tab 100 count bottle treats 100 cups of food with both digestive enzymes and probiotics. We only use safe vegetarian enzymes with no bad side effects, unlike other products using animal pancreatic enzymes. Compare our advanced formula to the rest. Now you can sell the total digestive solution in a simple combo tablet form.

Total-Zymes® Plus tabs work by completely digesting the pet's diet and delivering all the nutrition from the food. At the same time the probiotics insure complete absorption and utilization of the food while supporting the immune system. This formula is not only for pets with digestive issues, but should be used for optimal health in all dogs and cats. Far and away it is the most powerful formula on the market!

This formula will support a healthy immune system, improve digestion, improve proper elimination removing toxins from the body, manufacturing B Vitamins in the gut and producing smaller and firmer stools.

NWC Naturals® Pet Products knows when feeding the modern pet diet all pets should be supported with a complete digestive solution. Total-Zymes® Plus tabs includes enzymes, pre-biotics, probiotics and offers the only patented stabilized glutamine in the world- MGG chelate, plus our exclusive enzyme delivery system L.E.A.D.S. ®

The addition of the chelated glutamine in Total-Zymes® Plus greatly improves the stability and colonization characteristics of beneficial bacteria in the pet's intestinal tract and is an essential nutrient that is required by the intestinal cells. It can actually help repair a damaged intestinal tract.

It is essential that all pets have a daily supplement of probiotics and enzymes to support their immune systems and aid digestion. This new improved formula and new bigger size joins our family of products to help pets stay fit and healthy.

The original formula and size was immensely popular even with larger pets. We were constantly asked by consumers to make a bigger size tablet for larger pets. We listened!

Come and see us at the show! The author of "The Wonder of Probiotics" John R Taylor N.D. will be in our booth all three days come by and ask him how Total-Zymes® Plus can improve the health of all pets.

Does the Antarctic hold the secret to pet's health?

NWC Naturals® Pet Products LLC announces its new Krill Oil supplement **Tri-KRILL™** for pets. **Tri-KRILL™** is now available in the new convenient airless vacuum PUMP bottle with 500 pumps per bottle. Use one pump for every 10 pounds of the pet's weight, for a twenty pound pet one bottle will last over eight months. **Tri-KRILL™** absorbs four times better than fish oils supplying omega-3s with the added benefit of the super anti-oxidant **astaxanthin**. With 7 times more astaxanthin than ordinary krill oil this formula is a better choice than plain fish oil to help improve the overall health of pets.

We are the first and only company to offer this new Krill oil supplement **made in the USA** to health food stores, pet distributors, specialty pet stores and veterinary offices directly from NWC Naturals® Pet products LLC in the **"NEW" airless vacuum pump bottle!** Krill oil is the fastest growing ingredient in the omega-3 market. Be the first to carry **Tri-KRILL™** for pets in the **New airless vacuum pump bottle!**

Before dogs and cats were domesticated, they received their essential omega-3 fatty acids, EPA and DHA, from their natural diet (rabbits, rodents, birds, and fish). But now our pets depend on us for their food. With modern technology, commercially produced pet food is cooked and processed, although a convenient method of feeding our pets, many foods are missing the essential omega -3 fatty acids. Omega-3 fatty acids are needed to offset the high amounts of omega 6 in commercial pet food. Also astaxanthin cannot be made in the body so we need to add it, either through the diet or through supplementation.

NWC Naturals® Pet Products knows when feeding the modern pet diet all pets should be supported with a complete omega formula. One of the key functions of **Tri-Krill™** is to supply omega-3 fatty acids, EPA, DHA along with astaxanthin. This will support the body's natural anti-inflammatory response.

Pets can suffer from numerous inflammatory conditions and allergies that can affect their health. Studies have shown supplementation with **Tri-KRILL™** supports dogs and cats with inflammatory conditions and allergies. **Tri-KRILL™** also supports healthy joints, kidney function, a healthy heart plus glowing skin and coat.

Omega-3 fatty acids combined with astaxanthin is important throughout the life of all dogs and cats. DHA is critical for normal neurological (brain) development in both puppies and kittens.

Supplementing a pets' diets with **Tri-KRILL™** is a better source of Omega-3s with the added benefit of astaxanthin, it absorbs quickly into the system, without any heavy metal build up. (**Tri-KRILL™** contains NO contaminants or mercury, unlike some fish oils).

Tri-KRILL™ it is the top choice for omega-3 fatty acids sources. Carry the best in your stores, **Tri-KRILL™ for pets. In the original gel caps or now in a convent airless vacuum pump. Come see us at Super Zoo.**

About NWC Naturals Pet Products LLC.

We are a family owned and operated company since 1995. We are dedicated to improving the quality of life for pets and their human families, by supplying the highest quality supplements for the entire family including pets. Our wish is to proactively lengthen the life of pets, improve their quality of life and their general health.
