

## DogBrite EL Lighted, Waterproof Collar & Leash

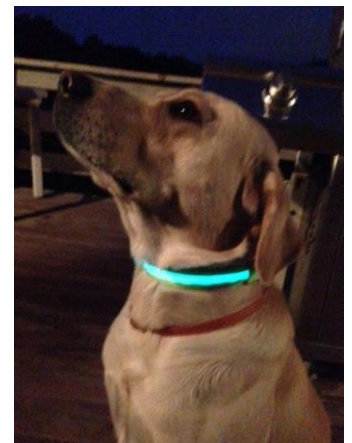

DogBrite is the **ONLY EL lighted and waterproof** collar and leash on the market! No more cheap LED collars/leashes! Our collar and leash are also equipped with a waterproof design, so you don't have to worry about your dog getting them wet! DogBrite is the future of lighted collars and leashes! Here are the biggest differences between DogBrite and LED collars/leashes.

### DogBrite EL Collar

- DogBrite uses EL ribbon, which is very lightweight, thin and flexible! It can be seen at 1000 feet!
- EL lighting has a much better light output! With 80% output after 70 hrs!
- The DogBrite collar is waterproof in up to two meters of water!
- The DogBrite dog collar lasts 70 hrs. and runs on two inexpensive AAA batteries!
- The DogBrite collar is adjustable! It fits any dog with a 10-21 inch neck!
- MSRP: \$19.99

### Standard LED Collar

- LED collars use a plastic tube, which is heavy and stiff. It can be seen at the same distance.
- LED collars have a light output of 20% after 70 hrs.
- Standard LED collars are not waterproof.
- Standard LED collars last 70 hrs. and runs on expensive coin batteries.
- Standard LED collars come in three sizes. Small, medium, and large.
- MSRP: \$14.95-\$19.99

### DogBrite EL Leash

- The only WATERPROOF lighted Leash! Visible 1,000 ft!
- Rechargeable! Lasts 20+ hrs on flash mode per charge! Uses a micro USB chord.
- 6 ft long! Only one battery box. The whole leash lights up from top to bottom!
- MSRP: \$24.99

### Standard LED Leash

- Not waterproof. Visible at 1,000 ft.
- Uses expensive coin batteries. Lasts 75 hrs.
- 5 ft long. Only lights up 18 inches.
- MSRP: \$17.99
