**Curicyn™, the Newest Name in Animal Care Products Introduces Its New Line of Innovative Pet and Equine Products for the First Time at SuperZoo 2018!**

Eastern Technologies Inc., Ashford, AL  
Curicyn has gained significant exposure and market traction since its initial market launch in 2017. The product line has grown extensively and includes products that address a broad spectrum of challenges in virtually all species of animals.

Eastern Technologies Inc., manufacturer of the host of Curicyn products is a division of Global Resources International, a global medical and industrial manufacturing company. The Curicyn line of products is a perfect complement to the company's large expanse and global distribution of medical and industrial products. The company has offices, manufacturing and distribution facilities in seven countries. All Curicyn products are manufactured in the USA.

*"The core Curicyn team consists of equine specialists, pet experts, scientists, engineers, businesspeople and committed animal owners and business leaders. The team is determined to bring Curicyn to every barn, stable, kennel and household. Get to know Curicyn, you will like the energy, service attitude and the market values for which we stand. Our primary objective is to provide uniquely-developed solutions to better enhance your animal's well-being. The new Curicyn Pet Care Kit and Orthopedic Pet Beds are certain to be a hit at SuperZoo 2018!"*

*John Steward, President*

Curicyn is making its first SuperZoo debut. The company will exhibit its entire line of animal care products and specialty products. Curicyn will be unveiling two new pet products and show specials during the show! Stop by Booth 5001 and get to know Curicyn. Curicyn offers high margins, free shipping and no minimum order. It's the only animal care product line you will ever need.
