## HEALTH EXTENSION INTRODUCES FOUR WORLDLY CANNED RECIPES FOR DOGS

*See What's New at SuperZoo Booth #3327*

**DEER PARK, NY** – Health Extension Pet Care, a leading holistic pet food company, recently launched a super premium collection of grain-free canned diets for canine foodies of every age and breed. These “meat first” recipes are created with whole foods, like real salmon, venison, quail and beef, plus other health-boosting ingredients, like turmeric and apple cider vinegar. Natural ingredients are added, such as pure coconut oil, to help support optimal health. Plus, they do not contain any wheat, corn, soy, GMO ingredients or artificial preservatives, just like the rest of the Health Extension line.

Four captivating flavors are being introduced in easy-open 12.5-ounce cans:

- Northern Catch Salmon Recipe
- Tuscan Style Quail Recipe
- Italian Feast Venison Recipe
- New York Style Beef Recipe

The suggested retail price per can is \$2.79. Retailers interested in carrying this enticing new line are invited to contact their Health Extension distributor or call 800-992-9738.

### **About Health Extension® Pet Care**

A family-owned, third generation company, Health Extension Pet Care crafts natural food and treats pet parents can feel great about feeding their best friend. Every Health Extension recipe is made with the finest ingredients to keep pets happy and healthy. The brand has been turning heads with recent awards, including an Industry All-Star Recognition from *Pet Business* magazine, an Editors' Choice Award from *Pet Product News* and a *Graphic Design USA* American Package Design Award. They are also a proud member of the Pet Industry Sustainability Coalition, and working towards sustainable business solutions.
