Jax n Daisy, Inc. has created an anti-fungal, anti-bacterial shampoo and lotion product that is infused with all natural and essential oils

Manufactured and located in Dover, Delaware, Jax n Daisy, Inc. sells anti-fungal, anti-bacterial shampoo and lotion to pet owners who want relief for their pets who suffer from moderate to severe skin dermatitis. Unlike our competitors with harsh chemical solutions, our products offer a gentle soothing more natural approach to aid in the healing of most skin conditions. Proven to be 99% successful based on the results of nearly a half of a million products sold.

Inspired by all natural and essential oils, the creator Tina Dennis, began developing shampoo and lotion for her own personal use. She found her creations were calming and soothing to her own skin, so out of curiosity she began using it on her own pets. After years of modifying and testing different combinations, Jax n Daisy's shampoo and lotion were developed in January of 2016.

Jax n Daisy strive to “earn your trust one pet at a time.” With our 99% success rate; our customers who have used our products share hundreds of testimonials each month that experience amazing results, truly gaining the trust of our products one pet at a time.

Enriched with Vitamin E, Jax n Daisy not only assists in healing dogs skin conditions but also cleanses wounds and skin irritations leaving their coat conditioned, shiny and soft. Jax n Daisy was produced to benefit pets with skin issues to be able find relief safely and effectively.
