## **WATERDOG SUPPLEMENTS INTRODUCES COMPLETE DAILY SUPPLEMENTS, ACTIVE AND SENIOR FOR DOG HEALTH.**

Kim Swanson and Jennifer Cook, founders of **Waterdog Supplements** in Florida are very excited to bring **Active** and **Senior** All-Natural Daily Supplements to the market. Active and Senior include all-natural ingredients that help support joint health, eye function, immune system support, muscle recovery and cellular health while also reducing discomfort associated with normal daily exercise and activity. “Our products contain only active ingredients, no fillers to make the container look bigger. They improve a dog’s daily quality of life, vitality and overall health for all ages, young to old. Waterdog’s mission is for a dog to take one supplement daily to achieve the best overall health and I believe that is what Active and Senior accomplish”.

Made with Glucosamine, Green Lipped Mussel, MSM and other effective ingredients, **Waterdog Active** has proven to help dogs with overall health and recovery; Annemarie Gunn’s 3 year old Golden Retriever, Maggie, has seen phenomenal results after only 4 weeks of using Waterdog Active. Annemarie states: “Maggie is very active, and loves chasing a ball non-stop. We used to have to carry her up the stairs to our 2nd story deck due to her experiencing joint and hip pain. After 4 weeks on Active, she happily bounces up the stairs by herself. We were shocked and very happy to see this dramatic improvement!”

The newest addition to the Waterdog line is **Waterdog Senior** for dogs over 7 years of age. Waterdog Senior contains therapeutic doses of CoQ10 (Ubiquinol), Silybin and L-tryptophan and several active ingredients that support canine cardiac function, skin, coat, mobility and comfort to improve quality of life during aging. It is no surprise that Waterdog Senior is receiving great reviews as well.

Waterdog Supplements was founded in 2015 by Cook and Swanson. Their objective is offering complete dog supplements with all-natural ingredients and nothing extra. Developed with Veterinary and Nutritionist expertise, Waterdog believes it’s products are the best quality and most effective available. Their booth at the **2018 SuperZoo** will be in the new exhibitor section, **booth #2656**. For more information, visit [www.WaterdogSupplements.com](http://www.WaterdogSupplements.com)
